

Transworld Group's Airavat Aviation Forays into India with Former SpiceJet Chief's Sirius India Airlines

New Delhi, 9th April 2024: Transworld Group's Airavat Aviation, a renowned name in luxury private air travel in the Middle East, is making its mark in India through a strategic collaboration with Sirius India Airlines, led by former SpiceJet Chief Operating Officer, Arun Kashyap. This landmark collaboration marks a significant milestone in the aviation landscape of India, promising a new era of luxury travel.

The joint venture marks a significant milestone for Airavat as it ventures into the vibrant Indian market, aiming to cater to the growing demand for luxury air travel. Leveraging its expertise and resources, Airavat, in collaboration with Sirius India Airlines, will initially operate flights through TJ Surya, a Hawker 4000 aircraft with plans on expanding our fleet in India.

“We are thrilled to introduce Airavat to the Indian market,” said Ramesh S. Ramakrishnan, Chairman of Transworld Group. “Our commitment is to provide unparalleled comfort, safety, and discretion to our clientele. Airavat caters to the growing demand for luxurious and bespoke travel experiences, while remaining mindful of environmental responsibility.” “Discerning travellers can now enjoy on-demand flights to a wide range of destinations across India and to Europe, Africa, South East Asia, and the Middle East,” he said.

“The partnership is strategically timed to capitalize on the India’s flourishing private aviation sector. This expansion also strengthens the ties between India and the Middle East by facilitating seamless private air travel connections.”

Mr. Arun Kashyap the Promoter-Director of Sirius India Airlines said, “Today marks an exhilarating milestone for Sirius India Airlines as we embark on a transformative journey in the Indian aviation sector with a strategic joint partnership with Transworld Global Group's Airavat Aviation. This collaboration signifies a union of expertise, innovation, and unwavering commitment to excellence. Our partnership with Airavat Aviation underlines our shared vision to redefine standards and create unparalleled experiences for our customers in India.”

About Airavat Aviation

Airavat, a subsidiary of Transworld Group offers bespoke luxury private jet experiences to discerning travellers. Operating out of India and Dubai, Airavat's fleet of super-midsize business jets connects key destinations across the globe. Airavat prioritizes safety, excellence, and environmental responsibility, offering carbon-neutral operations and a commitment to sustainability.

Headquartered in Dubai, Transworld Group operates through a network of global offices and covers a complete range of end-to-end solutions from ship owning, ship management, aircraft owning, multi-modal logistics solutions and integrated digital solutions.

Airavat prioritizes sustainability alongside luxury. Through a unique partnership with a registered NGO, they plant trees for every flight undertaken, effectively offsetting the carbon footprint of their operations. This initiative aligns with global efforts to achieve net-zero carbon emissions in the aviation industry by 2050.
