

Transworld Group celebrates Valli & Sivaswamy Memorial Event 2024

Transworld Group celebrated the Valli & Sivaswamy Memorial Event 2024, an occasion dedicated to honoring their enduring partnership with associates and friends spanning over 47 years. The event featured the esteemed presence of Commander Abhilash Tomy, who delivered invaluable insights drawn from his illustrious life experiences across the sea. A noteworthy highlight of the celebration was the unveiling of Transgreen Agro & Logix Pvt. Ltd., the group's new venture in the food and agriculture sector.

Transworld Group launches Transgreen Agro & Logix Private Ltd

We're proud to launch Transgreen, a subsidiary of Transworld Group of Companies. Transgreen Agro & Logix Pvt. Ltd. is a food processing company built on ethical sourcing and sustainable practices, providing healthy food for all. With a range of verticals including Ready-to-Cook, Ready-to-Eat, Bulk Food Supply for the HoReCa industry, Sustainable Sourcing, Innovations, and Solutions Consulting, Transgreen is poised to make a positive impact in the food industry.

New Fleet Addition

We are proud to announce that Transworld Group has acquired the GH Tramontane, now renamed Bharani, with a container capacity of 3,651 TEUs. This strategic acquisition significantly enhances our shipping capabilities & supports our ongoing commitment to delivering excellence in global logistics.

Transworld Group sponsors 10th Asia Dry Bulk Cargo Summit (DRYCON 2024)

Transworld Group proudly sponsored the 10th Asia Dry Bulk Cargo Summit (DRYCON 2024), held at Holiday Inn, Mumbai. This maritime extravaganza brought together industry leaders, innovators, and enthusiasts to explore the currents shaping the future of dry bulk shipping.

Saudi Arabia logistics trends

Saudi Arabia's logistics sector is undergoing a significant transformation, driven by ambitious initiatives like Vision 2030 and the National Industrial Strategy. These efforts aim to diversify the economy and position the Kingdom as a global logistics hub. The Kingdom presents substantial opportunities for global logistics players. With a population of approximately 36 million and a gross domestic product of \$1.81 trillion in purchasing power parity as of the end of 2023, Saudi Arabia is a central hub for wide trade routes supported by world-class infrastructure.

Mr. Sameeulla Gafoor

Assistant General Manager,
Transworld Saudi Logistics

1. Infrastructure Development

Saudi Arabia is investing heavily in infrastructure to support its logistics ambitions. Key projects include the development of NEOM, the Riyadh Logistics Park, and the expansion of the King Abdulaziz Port in the Eastern Province. Saudi Arabia's strategic location between Europe, Asia, and Africa gives it a significant competitive advantage as a logistics hub. In addition to the major international ports in Jeddah and Dammam, new port in NEOM also plays a vital role in strategic advantage of Saudi Arabia's logistics roadmap. This growth in infrastructure aims to make Saudi Arabia a preferred destination for international logistics companies.

2. Technological Advancements

Technological innovations such as automation, robotics, block chain and artificial intelligence are revolutionizing the logistics sector. These technologies enhance efficiency and accuracy in supply chain operations, from warehousing to transportation. Saudi customs is enhancing its capabilities through single window initiatives and integration into various data flows, with support from port operators, shipping lines, and airlines. Saudi companies are heavily investing in Smart logistics solutions including automated warehouses, real-time tracking of shipments, and predictive analytics for better transparency and improved supply chain.

3. Special Economic Zones and Free Zones

Saudi Arabia has been focusing on creating special economic zones (SEZs) and free zones to attract foreign investment and developing country as the free trade hub of the region. The Red Sea Gateway Terminal (RSGT) and NEOM's Oxagon project are prominent examples of new initiatives in this direction. Encouraging Public and Private partnership is also another

strategy by Saudi Government to promote the investment by Global Logistics players to Saudi Trade zones. Key upcoming projects in Country includes Integrated logistics bonded Zone in Riyadh, Jazan Special Economic Zone, Jizan and King Salman Energy Park (SPARK) Al Ahsa, Eastern Province.

4. E-commerce and Last-Mile Delivery

With e-commerce growing in the region, particularly accelerated by the COVID-19 pandemic, Saudi Arabia has witnessed a surge in demand for last-mile delivery solutions. Companies are investing in innovative delivery technologies such as drones, electric vehicles, and autonomous vehicles to reduce delivery times and costs. Local retailers and global e-commerce giants like Amazon and Noon are investing heavily in warehousing and distribution infrastructure. The demand for logistics companies offering efficient last-mile solutions has skyrocketed as customer expectations for faster and cheaper deliveries grow.

5. Sustainability Initiatives

Sustainability is increasingly becoming a priority in Saudi Arabia's logistics sector. In line with Vision 2030's goals of reducing the Kingdom's carbon footprint, companies are exploring green logistics options. This includes the adoption of electric vehicles for transportation, the use of renewable energy in warehouses and ports, and the implementation of eco-friendly packaging solutions. Moreover, NEOM aims to operate entirely on renewable energy, which is expected to set a new standard for green logistics in the region

Other influencing factors

Saudi Arabia's successful bids for Expo 2030 and the 2034 FIFA World Cup are set to boost the logistics sector. These events will attract significant global business, opening new channels for trade and commerce.

Saudi Arabia spending about SAR 100 billion every year under National Industrial Development and Logistics Program (NIDLP) aimed at creating 1.6 million jobs and attracting SAR 1.6 trillion in investment by 2030.

Saudi Arabia is investing heavily in rail infrastructure to facilitate the movement of goods across the Kingdom. The Saudi Landbridge project, which aims to connect the Red Sea to the Arabian Gulf by rail, will significantly reduce transportation times for goods moving between Europe and Asia.

Transworld Group 1st runner Up in Small Business Category at Arabia CSR & Sustainability Awards

We're excited to share that Transworld Group has been awarded the prestigious @arabiaccsr Award 2024 (1st runner Up in Small Business Category). Receiving this recognition for the third consecutive year, highlights our company's vision and the hard work of our teams and volunteers in driving impactful CSR and sustainability initiatives.

Transworld Group prestigious ESG Label 2024

We are excited to share that Transworld Group has been awarded the prestigious ESG Label 2024 by the Dubai Chamber of Commerce. This recognition highlights our efforts to drive positive change by embedding Environmental, Social, and Governance (ESG) principles into our operations. Transworld is proud to stand among the 27 companies recognized this year for contributing to a more sustainable future. We are proud to be a part of this community that prioritizes responsible business practices and contributes to the UAE's sustainability vision.

Transworld Group Best Workplaces for Millennials - GCC 2024

We are pleased to announce that Transworld Group has been recognized as the Best Workplaces for Millennials - GCC for the year 2024!

This honor reflects our leadership's dedication to a higher purpose of Delivering Prosperity to Humanity, fostering a positive culture, and the unwavering commitment of each of you. Thank you for being part of our journey.

In a conversation with Abhishek Choudhary, Assistant General Manager, Group Information Technology at Transworld Group

From a young age, Abhishek was drawn to technology, with his family playing a pivotal role in encouraging his pursuits. As the eldest son, he felt a strong sense of responsibility to support his family and set a positive example, which drove him to achieve professional success. His journey began in 2000 when he started as a Desktop Support Engineer, laying the foundation for a career that would see him explore various technology domains. Over the years, he consistently adapted his skills to keep pace with industry trends, ensuring his growth and relevance in the field.

In 2017, Abhishek joined Transworld Group as Manager of IT Infrastructure, a position that brought exciting challenges and opportunities. This role allowed him to work closely with senior management, gaining valuable experience that contributed to his professional growth. Over the past seven years, his time at Transworld has been instrumental in shaping his career, leading to his current position where he oversees IT Infrastructure Security and Cloud Technologies on a global scale.

Abhishek attributes much of his success to the mentorship of his boss, who recognized his dedication and provided invaluable guidance along the way. Transworld's commitment to Corporate Social Responsibility (CSR) has also been significant, allowing him to give back to society through various initiatives. The support he has received from the management and his colleagues has made the company feel like a second family, further deepening his connection to the organization.

Looking back, Abhishek feels immense gratitude for the opportunities and relationships he has built at Transworld. He remains excited about the future and looks forward to continuing his journey with the company, contributing to its growth and success in the years to come.

Corporate Responsibility Day 2024

Dubai | USA | Oman | Sri Lanka | Saudi Arabia | India

To celebrate the birth anniversary of Transworld Group's Founder-Chairman Late Shri R. Sivaswamy, annually celebrated on April 28th, an intensive plantation drive was conducted across all Transworld Group locations. The initiative witnessed participation of 125 volunteers who were joined by 191 community members in planting 4,127 saplings in collaboration with partner organizations – Agile Advisors and Emirate Marine Environmental Group (Dubai), Art of Living Oman (Muscat), Dammam Municipality (Dammam), SERVE (Colombo), Catch Foundation (Mumbai), Aahwahan Foundation (Delhi, Kandla, Kochi, Kolkata, Paradip and Tirupur). On the occasion, Transworld Group had made the commitment of planting 500,000 trees till 2027, when it would be celebrating its 50th anniversary.

World Turtle Day 2024

An online session, in collaboration with long-term partner NGO APOWA, was organized for Transworld Group employees to raise awareness about the Community-led Olive Ridley Turtle Conservation project. It was attended by 54 employees who gained knowledge on the subject and observed safe release of hatchlings in the sea, criticality of protecting turtle nests in-situ & ex-situ, importance of creating awareness among communities, beach cleanups, waste management, etc.

Capacity building have equipped turtle guards and volunteers with the necessary skills and knowledge

545602 turtle hatchlings safely released to sea from 2020- 2024

Transworld Staffs from Paradip participate in hatchling release

World Environment Day 2024

Marking World Environment Day, annually celebrated on June 5th, Transworld Group hosted Bio-Enzyme making workshop in collaboration with Hara Jeevan NGO. The workshop witnessed an overwhelming response from 80 volunteers at Mumbai & Delhi. This initiative proved to be conducive in adopting alternate means of lifestyle, which would help in reduction of chemically induced pollution of water bodies, groundwater, and soil.

World Blood Donors Day 2024

To serve humanity, on the occasion of World Blood Donors Day, annually marked on June 14th, 21 volunteer donors of Transworld Group had stepped forward to save lives by donating blood and support access to safe blood. At Mumbai, Transworld Group supported Fleet Management Limited's blood donation drive in association with Mahatma Gandhi Blood Bank. While at Delhi, donors visited Indraprastha Apollo Hospitals.

World Day Against Trafficking in Persons 2024

Aligning with the theme of "Leave No Child Behind in the Fight Against Human Trafficking", Transworld Group partnered with NGO VIHAAN to organize an online session on child trafficking. Attended by 67 employees, the session focused on detecting the risk factors, vulnerability of children as the group, traffickers' tactics, warning signs, etc. The session was conducive in raising awareness about the subject and identified the measures for helping survivors in rehabilitation and integration within society

National Nutrition Week 2024

In alignment with Government of India's Poshan Maah, 40 volunteers of Transworld Group had participated in providing 7,097 meals to underprivileged elderly people in partnership with NGOs – Seva Sarvopari Trust (Kandla), Tamizha Foundation Trust (Tirupur), Vridh Care Quality of Life Foundation (Delhi, Kochi, Kolkata, Mumbai, Paradip, Vadodara). The flagship initiative attempts to address the challenges of hunger and access to nutritious meals as it is aligned with UN SDGs of Zero Hunger and Good Health & Wellbeing.

International Literacy Day 2024

Continuing Transworld Group's commitment towards support literacy among students from lesser-privileged background, two initiatives focusing on learning material creation and donation were organized. It was wholeheartedly aided by employees, and other offices who had extended their support in providing learning material to children. The overwhelming response was further expanded by 46 volunteers who had participated in preparing the material and distributing the donated stationaries to 131 beneficiaries to of partners – HK Rehabilitation Centre (Dubai), Jamghat (Delhi), and Dharavi Rocks (Mumbai).

Team Building Initiatives

At Transworld, we believe in having fun while building strong teams! Recently, our amazing teams from India and GCC gathered for some super fun team-building activities. Laughter, problem-solving and a little healthy competition brought us closer than ever before. Huge shoutout to our awesome Transworld-ites for jumping in with so much enthusiasm. Here's to many more moments of teamwork and fun ahead!

Drip trays

Drip trays on ships are essentially large basins designed to catch leaks or drips from specific locations on the ship. They play a crucial role in preventing environmental damage and protecting the ship itself.
